ABOUT ME

"UI/UX Designer"

As a UI/UX Designer, I am passionate about creating visually appealing and functional user experiences. Bringing forth a commitment to creating a robust design that enhances productions, strengthens characters, and entices viewers. Adept at collaborating with developers and other team professionals to achieve high goals and deadlines.

WORK EXPERIENCE

Web Designer

Future It Solutions [01/06/2016 – 30/04/2018]

City: Bangalore

Country: India

- Helped to achieve a consistent look and visual theme across the website by promoting uniform fonts, formatting, images, and layout.
- Worked to assess competing websites in regards to content, look, and feel.
- Effectively translated client requirements into application designs and system requirements.
- Brought forth vast experience designing and developing responsive design websites.
- Collaborated to create strategic initiatives to design, code, and test solutions.

Freelance UI/UX Designer

Country: Germany

Company: Diyog GmbH (URL: <https://diyog.eu/>)

- Met and corresponded with clients to determine client needs for company sites.
- Created Interactive Prototypes, Low to High-Fidelity Wireframes, logic flows, visual design, and Icon.
- Provided content strategy, UI design direction, and User experience design.
- Mapped out user flow, created wireframes, designed UI for new experience, and worked with the development team to execute the design.
- Scheduled and conducted remote usability tests to observe user behavior on interaction.

MASTER THESIS

Book my parking | | SRH Hochschule Heidelberg, Germany

[10/05/2021 – 27/11/2021]

- The main objective of the Master Thesis was to deliver a solution to customers who find it difficult to find a parking spot.
- Researched and identified problems through people's talks and user research.
- Performed brainstorming and sketching.
- Based on the responses obtained and keeping in mind all the environmental benefits, a mobile app was designed where users can search for the nearest parking place and reserve the parking slot in advance.
- Complete UI design of book my parking from usability case studies, wire-frame using Balsamiq, and prototypes using Adobe XD to a fully functional mobile app.

RESEARCH/INTERNSHIP

Music Game Application | | SRH Hochschule Heidelberg, Germany

[17/03/2021 – 17/06/2021]

- Implemented and Designed application modules under the direction of Prof. Dr. Andreas Jäger.
- The application was created for a selected set of users whom they can create music using lyrics, drums, guitars, and keyboards.
- Worked to ensure a positive and hassle-free customer experience.
- Utilized my skills and knowledge of hand and power tools to design and build.

EDUCATION AND TRAINING

Master of Science in Applied Computer Science

SRH Hochschule Heidelberg [01/10/2019 – 27/11/2021]

Address: | | Heidelberg- (Germany)

Bachelor's in Information Science and Engineering

Sapthagiri College of Engineering [01/08/2012 – 26/08/2015]

Address: | | Bangalore - (India)

PROJECTS

Online Doctor Appointment System

- The main purpose of the Doctor Appointment System is to manage the details of the Doctor, Appointment, Patients, Booking, and Doctor Schedule.
- Successfully restructured our online presence, giving it a fresh and new feel.
- Leveraged my creativity to identify new ways to increase online presence.
- Provided accurate daily appointment schedule information to the doctor.
- Utilized crucial design software skills to assist with projects.

Recycling waste Management System

- The objective of this project is based on environmental protection.
- Users can book an appointment and can get information about recycling wastes with company information.
- User stories were created based on the interviews of the consumers.

- A customer journey map was created to show the user experience.
- Utilized Design Thinking concepts and built a creative user-friendly wire-frame and Prototype using Adobe XD, Balsamiq.
